

# Coaching Award

Grant Beck, Yellowknife

Grant Beck is a coach, and educator, and a dedicated volunteer. He has volunteered countless hours as an Arctic Winter Games coach as well as educating and guiding students through on the land programs that incorporate dog mushing. Any time trails need to be groomed for races or for getting students out on a sled, Grant is the first to volunteer. The world champion dog musher has many amazing experiences that he is more than willing to pass on to young, aspiring mushers. As a young boy, Grant told his mother that he is going to become a world champion dog musher. His success can be directly related to goal setting and having a dream. As a coach/mentor, he promotes goal setting and achieving small targets that, over time, will make you a winner. You can be in Alaska, Fort Resolution, or Europe and people know what Grant Beck has done for his sport.
